DISCLAIMER

In the first quarter of 2024, modifications were implemented in the segment reporting of SURA Asset Management. The Voluntary segment, which consolidated the businesses of SURA Investments and Voluntary Pensions, was eliminated. From now on, SURA Investments will be presented as an independent segment, while the Voluntary Pensions business will be included in the Savings and Retirement segment, along with Mandatory Pensions and Severance Funds.

Additionally, the Insurance segment, which previously encompassed operations such as life annuities and pension insurance in Colombia, as well as life and health insurance in Chile, is being eliminated. In this new structure, the insurance operation in Colombia will be reported as an individual segment, while the insurance operation in Chile will be integrated into the SURA Investments segment. The new segment structure is aligned with how the businesses are managed.

SURA Investments is an asset management and investment advisory company with 20.5 trillion USD in AUM and a presence in Mexico, Colombia, Peru, Chile, and Uruguay. This business encompasses three segments: Wealth Management, which offers wealth management solutions for individuals; Corporate Solutions, providing solutions for companies (private pension plans and savings programs) and managing reserves for insurance companies; and Investment Management, responsible for managing investment strategies in alternative assets (Real Estate, Private Debt, and Infrastructure).
